

T12xxH Series 12A TRIACs

Rev.7.0

DESCRIPTION:

T12xxH series triacs of high junction temperature with high dv/dt rate with strong resistance to electromagnetic interference provide high ability to withstand the shock loading of large current. They are especially recommended for use on inductive load and high environment temperature condition.

From all three terminals to external heatsink, T12xxH-xxA provides a rated insulation voltage of 2500 V_{RMS}, and T12xxH-xxF provides a rated insulation voltage of 2000 V_{RMS}, complying with UL standards (File ref: E252906). All the packages listed above are RoHS compliant. (2011/65/EU)
